

## **Audio Script Production Template 2023/24**

**PRODUCTION TITLE:** Sound & Audio Project  
**LOCATION:** UAL (University of the Arts London) LCC Campus  
**DURATION:** 60 – 90 Seconds

### **INTRODUCTION:**

Hello, my name is Archie Phillips, I study (BA) Advertising at UAL, London College of Communication and I welcome you to myblog This is the platform where I will be displaying my work throughout this course.

### **MAIN POINTS:**

Technically speaking this is currently my seventh year studying the subject. From year nine at GCSE, I studied creative imedia which was the start to my journey in this field. At first it was all about understanding pre-production methods which then progressed into digital creation and research methods etcetera.

After completing my GCSE's, I partook in a UAL extended diploma course in creative media production where I spent three years learning new software's and methods of working.

At college I spent a lot of time working with WIX website design which is vastly different to myblog and it was a challenge to learn this new software however I am feeling more confident in using it and I intend to learn more as I progress.

### **CONCLUSION/OUTRO:**

That is a little bit about me and how I got to where I am today, overall, I would like to thank you for taking the time to listen and keep looking out for updates on here as there is so much more to come.

once again welcome to my blog!
