

**Audio Script**  
**Production Template 2023/24**

**PRODUCTION TITLE: Creative foundations 23/24 Element 2 Sound & Audio**

**LOCATION: Home**

**DURATION: 60 – 90 Seconds (1 Minute – 1 Minute 30 Seconds)**

**INTRODUCTION – Hello, back again you might remember me from my other audio project from element one. In that one I spoke about me and what I study. In this one I would like to share one of my passions with you, film. You might be thinking if I have a passion for film then why is it not my area of study. The reason I don't study film is because to me films are an escape from the real world. I feel that if I were to study film the magic of it would be taken away and all I want to do is enjoy it.**

**MAIN POINTS – So let's talk 2023, going into that year was crazy It was the year where films were back on schedule from the pandemic. I remember on New Year's Day I saw an article on BBC News with this huge list of films that would release throughout the year with 'Barbenheimer' being the most talked about and as someone who works in a cinema that list was quite daunting, but it really was one of the most amazing years to be working in a cinema.**

**For element two I have made the topic about film, and I would like to share what's left to come. I am going to be creating a short film with partner who is here with me now for a quick Q&A.**

**Ri, as the star of my short film are you looking forward to being a part of it?**

**\*Response\***

**And what was your top movie of 2023 and why?**

**\*Response\***

**CONCLUSION/OUTRO - Thankyou Ri and thank you to those listening and I hope you enjoy my work of element two especially my short film.**

**Have a great day!**
